Integrated engineering and services provider Thiess Pty. Ltd. said May 28 that Samsung C&T awarded it a A\$330 **million** contract to construct the mine process plant facilities for Hancock Prospecting Group's 70% owned Roy Hill **iron ore** project in Western Australia.

The contract includes construction of the structural, mechanical, piping, electrical and instrumentation works which are being designed and supplied by Samsung. Thiess expects work to begin onsite in July and generate up to 1,000 jobs for about 14 months.

**TD**

As previously reported, **mining** recently commenced at the A\$10.7 **billion** Roy Hill project. On completion, the project will produce 55 **million** tonnes per annum of **iron ore**.

Marubeni Corp. holds a 15% **stake** in the project, POSCO has a 12.5% **stake**, and the remaining 2.5% interest is owned by **China** Steel Australia Ltd. Samsung C&T is the **lead** contractor of the project.
