[Voyager Global Group](#) ([ASX:VGR](#)) formerly Sprint **Energy** has offered investors additional time to acquire up to \$7 **million** worth of shares in the **company** priced at \$0.20 each.

**TD**

In October the **company** invited applications for up to 35 **million** shares under a public offering. This has now being extended to 21 January 2015.

Voyager is acquiring Voyager Global Choice Pty Ltd (VGC) which seeks to facilitate the investment by Australian retail investors into a range of individual funds managed by offshore-based fund managers.

This is a move away from its previous focus on **oil** and gas exploration.

The **acquisition** is still subject to all VGC Shareholders entering into share **sale** agreements to enable the **Company** to acquire 100% of VGC.

Voyager is offering 62283457 on a pro-rate basis to acquire VGC.

Voyager Global Choice

Voyager Global Choice intends to have various Australian Funds established which will invest directly into an Offshore Fund specific to that Australian Fund.

Each of these Australian Funds will have a responsible entity custodian and fund administrator all of which are external and unrelated to the **Company** or VGC.

Investors will invest funds into the Australian Fund which correlates with their chosen Offshore Fund.

Those funds will be pooled within the Australian Fund and then the Australian Fund will invest the investors's funds into the corresponding Offshore Fund.

Retail investors will use the mFund platform in the same way that shares are bought or sold on the ASX.

The proposed offshore-based fund managers will all be highly credible groups with large industry profiles and offer funds with an official investment-grade (or similar) rating from industry ratings group Morningstar or other similar groups.

VGC will receive administration fees from the offshore fund managers based on assets under management.
